

MATTEO GIOVANNI TRAVERSO

BIOMEDICAL ENGINEER

PROFILE

M.Sc. graduate in Biomedical Engineering specialized in Biomedical Instrumentation, experienced in the development of visuo-cognitive assessment frameworks using research-grade eye-tracking systems. Driven by deep curiosity and a commitment to continuous learning, I am highly motivated to join an R&D team or collaborate with clinical institutions—including radiotherapy settings—to drive innovation in active medical devices.

EXPERIENCE

Guest Student

Nov 2025 - Jul 2026

Istituto Italiano di Tecnologia (IIT)

U-VIP Unit, Genoa, Italy

Master's thesis research on validation of a multimodal framework to assess pediatric visuospatial attention, overcoming limitations of the traditional paper-based Modified Bells Test.

- Technical skills:* Designed a synchronized assessment environment (TechPAD, Tobii eye-tracker) and engineered custom data/ML pipelines in MATLAB and Python.
- Leadership & Adaptability:* Managed real-time data protocols and successfully led in-field experimental sessions with 18 children.
- Teamwork & Problem-solving:* Collaborated within a highly specialized R&D team, actively defining project specifications and optimizing methodologies.

Curricular Intern

Sept 2022 - Dec 2022

Ospedale Cottolengo, Turin, Italy

Bachelor's degree internship analyzing and comparing ultrasound (Harmonic 1100) and radiofrequency (LigaSure) surgical devices.

- Analytical & Clinical Observation:* Evaluated device performance and practical applications by directly attending live surgical procedures.
- Communication & Active Listening:* Conducted structured interviews with head surgeons to gather qualitative feedback on device handling and adaptability.
- Teamwork & Time Management:* Collaborated in a two-person team, successfully meeting strict deadlines while interfacing effectively with multiple medical departments and staff.

EDUCATION

Master's Degree in Biomedical Engineering

2023 - 2026

Politecnico di Torino, Turin

- Biomedical Instrumentation specialization.
- Thesis: "Beyond paper and pencil: validation of a multimodal technological framework for evaluation of pediatric visuo-spatial attention".
- Final grade: 106/110

Bachelor's Degree in Biomedical Engineering

2019 - 2023

Politecnico di Torino, Turin

- Final project: "Harmonic® vs LigaSure™: Comparative Analysis of Ultrasound and Radiofrequency Surgical Devices".
- Final grade: 94/110

High School Diploma

2014 - 2019

Liceo Scientifico Edoardo Amaldi, Novi Ligure (AL)

- Final grade: 100/100

CONTACTS

- +39 334 7898125
- mattetrave1@gmail.com
- <https://mattetrave.github.io>
- 17 April 2000
- Gavi (AL), 15066, Italy

SKILLS

- Programming:** MATLAB, Python
- Software:** Tobii SDK, LaTeX, Microsoft Office, GitHub, GIMP (basic), Unity 6 (basic), SolidWorks (basic).

LANGUAGES

Italian: Native

English: B2 (Cambridge First Certificate)

PERSONAL

Volunteering:

- Humanitarian Mission, Casa di Carità Umbra, Kosovo (Aug 2026)
- Blood donor at FIDAS since 2023.

Interests:

Alpine skiing & weight training (biomechanics focus) · Piano player · Science enthusiast (National Geographic, Nature).
